Maintaining Your Handicap

With the introduction of the WHS it is to your advantage to enter your scores into the England Golf system whenever you play to ensure your handicap index reflects ability and is up to date.

This is important if you wish to play in any Club competitions.

1. How to do this:

- 1.1. You must sign into the system BEFORE you play (See signing in and score entry below)
- 1.2. Fill in and sign your card as the example below. (Only Yours and your Markers scores must be on the card)
- 1.3. Enter your score on the system (See signing in and score entry below)
- 1.4. Put your card in the **appropriate** box so it can be verified.

Red Box For all Kings **Mens** Members playing a **Club Competition** or **Casual Round**.

Seniors Box For Kings **Mens Senior** Members playing a **Seniors Competition**. (Not casual round)

Blue Box For Kings **Lady** Members playing a **Club Competition** or **Casual Round**.

Jubilee Box For **Jubilee** Members playing a **Club Competition** or **Casual Round**.

Notes

- Failure to sign in and or input your scores will result in your card being discarded.
- If you choose Non-Qualify your score will not be processed by WHS for handicapping purposes.
- You must use the same system for sign in and score entry either **PSI** or **How-Did-I-Do**. You can't mix systems.
- You must sign in **BEFORE** you play and enter your score **AFTER** play with a gap of at least **TWO HOURS**. There is a time delay between signing in and score input, in addition, such input is time-stamped and subject to monitoring which may result in a penalty score being applied.

The above is an example of a **Stableford** card where the points are recorded. This is recommended for Casual rounds as a zero hole score will be counted.

If you enter **Strokeplay** you must enter a score on each hole as a zero will cause your card to be NR'd.
